The Particulars:

The fate of your nation is at stake on the great Battlefield of the Civil War. This card game includes two decks of 72 cards each representing the Union and the Confederacy.

The forces are equal in strength and resolve, from the units of volunteers to the greatest Generals ever to command. Here, too, are the artillery units, cavalry, and the Corps of Engineers. And you may also rely on civilian support, and the morale boost when the President joins the troops in the

field. Beware disease and harsh weather, and hope for prisoner exchange and favorable winds. Protect your sharpshooters and use your spies wisely - you know the enemy will do the same. For honor and glory!
