

VICTOR or Victim?

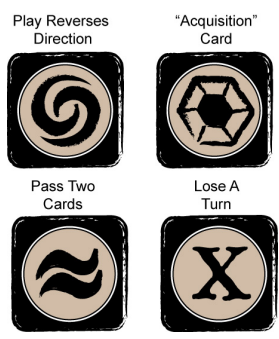

For 2 to 6 players
ages 12 and older
20 to 30 minutes.

The Particulars:

Victor or Victim is a light set-building card game in which the players will draw a card, evaluate its value based on the cards already played, and then pass a card to a neighboring player.

The winning objective is to collect cards which will spell the word "Victor" in a single color, while avoiding the acquisition of cards which spell "Victim" in a single color. Other players will attempt to pass you those cards every chance they get!

Some cards display symbols (as pictured above) which cause other

events during the game: pass two cards, steal a card, skip a turn, etc.

Chose your strategy carefully, for the cards may spell "success" or "doom" for you!

Promo Video on YouTube:

We've uploaded a video introduction to the game where you can see it played and hear about some of the main features of the game. Visit our website for the link!
